The Licenced Members' meeting on 6th February is for consideration of progression by Phase I trainees to Phase II, and of endorsement of licence applications for Phase II trainees. Any current Phase I trainees wishing to progress to Phase II should make this known to either of the group trainers (Noel Jackson, Clare Rawcliffe). Phase II trainees wishing to be considered for licence applications should discuss this with their assigned mentors and make sure that their training diary is available for circulation to licensed members prior to February 6th.

The first indoor meeting on 3rd October will elect members to committee roles, as set out in the draft byelaws appended to this mail, and will then proceed to discussion of the draft byelaws. Any member may nominate themselves as a candidate for one of the committee roles, but they should be aware that there is an expectation that office holders should be willing to serve on the board of Trustees.
